The role of women in the Cannes Festival's competition - A comparative study.

Data + Design by Datcha (<http://agence-datcha.com/>)

FEMALE DIRECTORS SELECTED IN COMPETITION

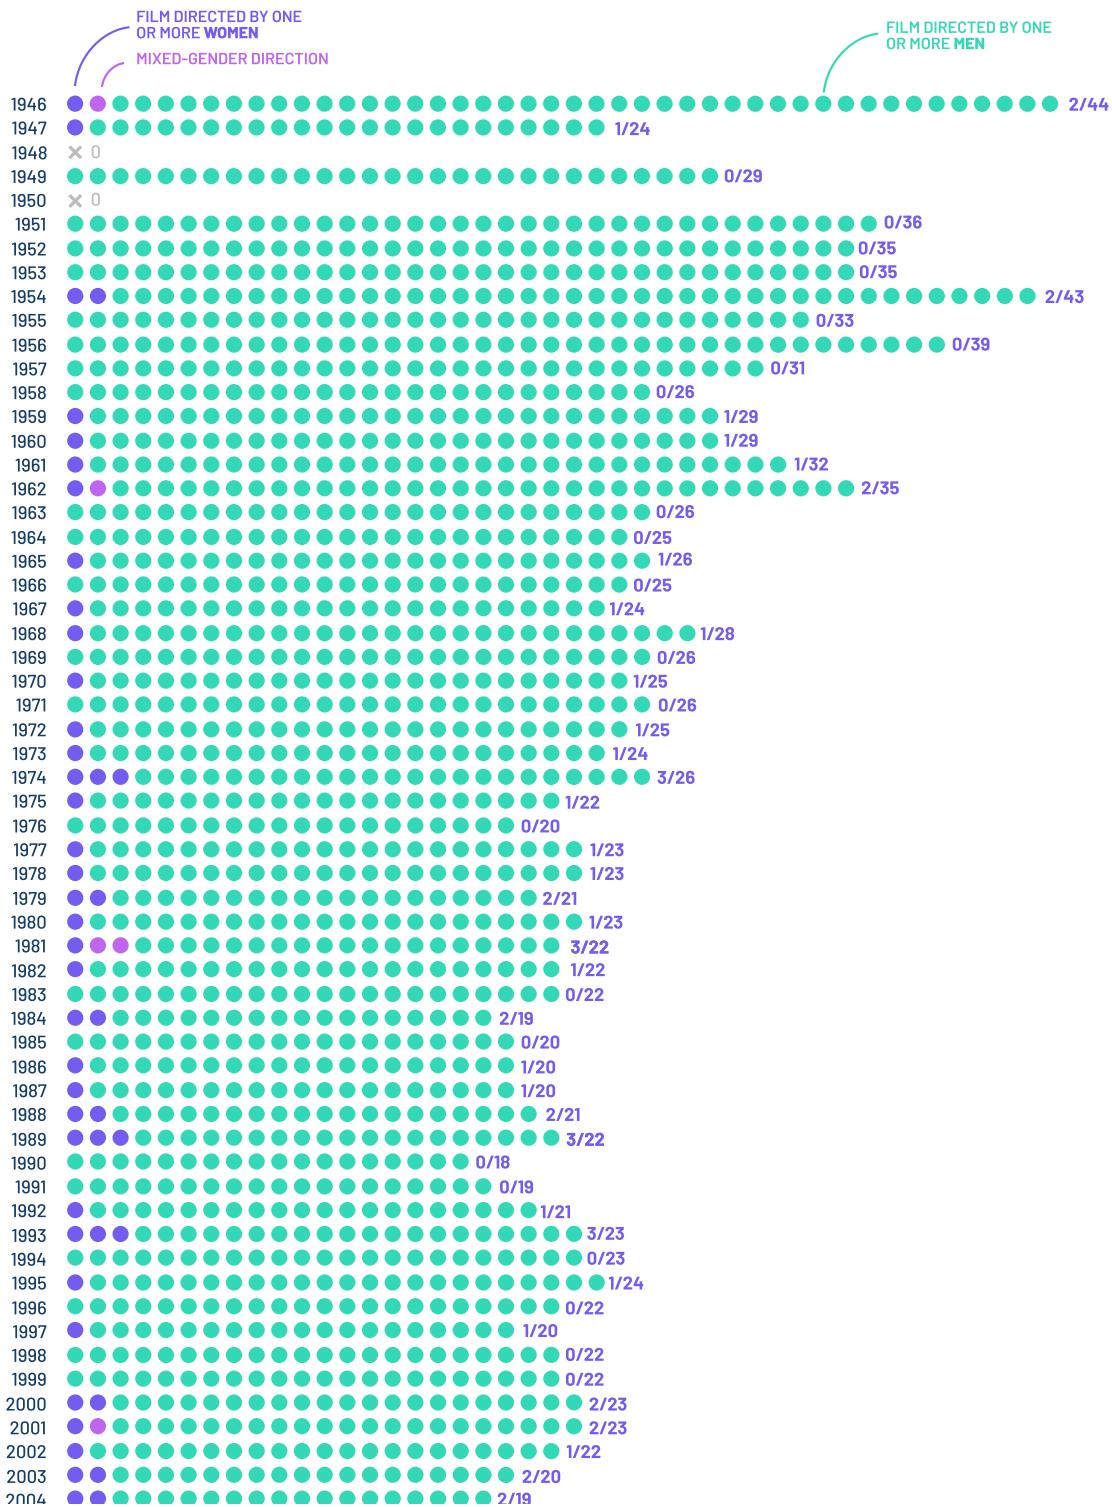

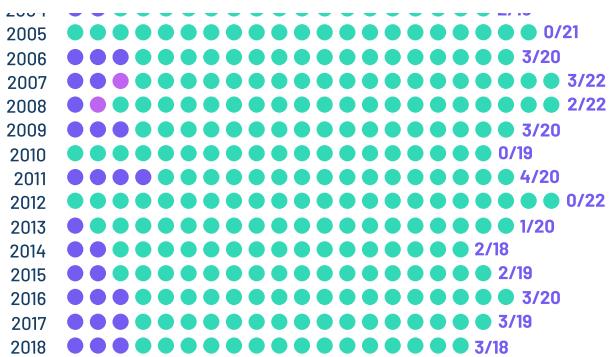

The share of female directors in competition in Cannes has never been above 20%, even though it has been increasing in recent years.

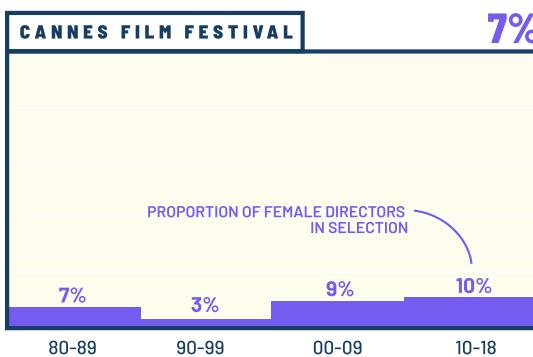

82 / 1727

films directed by women
in competition since 1946
(including 7 in mixed-gender teams).

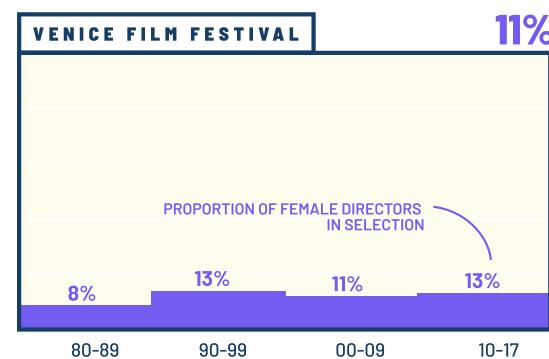

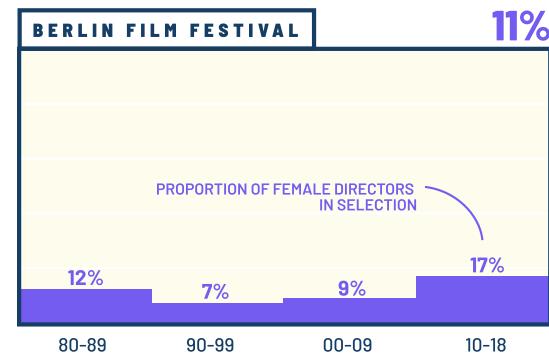

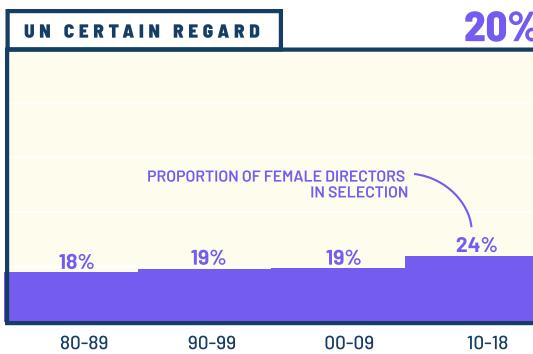

COMPARISON OF THE LAST 39 EDITIONS - 1980-2018

»

By comparing previous Cannes editions to other festivals, we note that female directors barely make it above 20%, even if the Berlinale and the Mostra do program more films directed by women.

Up until 2017 (current selection unknown to date)

AWARDS
